Architectural Services

Visuals

PTAH Architectural Services specialises in the creation of high-quality Computer visualization, 3D modeling, rendering, animation, virtual reality, physical models, multimedia and advertising for real estate developers, architects and interior designers.

Over the years we have created products and content for a wide variety of clients as well as undertaking our own commercial and non profit-making conceptual projects. We find solutions that will best promote your projects in today's market place: be it through a perfect visual, a powerful physical model, an upbeat and informative animation or a combination of all three; we work with you to find the best professional and cost effective solution.
